

Puppy Questionnaire

Following are some questions to help guide you in your description of your experience with dogs, your home, and what you are hoping for in your next family member. With these answers we can match our litters and puppies to your lifestyle. Please don't read anything into them, just answer them honestly.

1: Your name, address, and contact information:

2: Have you had Springers or other dogs before? If so, how old did the last couple of dogs live? Did you keep them intact or spay/neuter them? If kept intact, did they ever whelp or sire puppies? Do you want to spay/neuter this puppy?

3: Are you looking for a dog to hunt with, compete in field events, or be used solely as a family pet?

4: Would the dog live in the house, kennel, or both? What accommodations do you have for exercising your dog (fenced yard, close by dog park, etc)? Please describe.

5: Please describe your (or your family's) activity level (do you like to hike, walk, jog,? Do you travel much?).

6: Are you looking for a puppy or an older dog with some amount of training?

7: Are you looking for a male or female, or just the best dog for your family regardless of gender?

8: Are you looking for a specific color dog?

9: If you have children, have your children had much exposure to dogs? How do they feel about them? How do they react when a dog jumps up on them?

10: Please describe the kind of puppy you are hoping to take home, from a temperament and personality perspective.

11: Do you have any other observations you think might be useful in helping us get to know you better?
